25th November 2007

Dear Theresa,

I would like to thank you for your continued support in helping to alleviate the problem with my knee.

Since the operation, the hospital physiotherapy sessions had done nothing but cause my knee further distress, and I left the hospital limping each time.

Your gentle approach to building up the muscle with massage, exercise and stretching has made walking pain-free now.

I would not hesitate to recommend your services to friends and associates.

Yours Sincerely

John Fuller
